PREFACE.

We again appear before our patrons and present them with our usual business Annual and Directory for the year 1874, being the forty-sixth volume of the series.

It may not be out of place to give, in this connection, a few statistics concerning its history. The first Troy Directory was issued in the year 1829, by John Disturnell, who was both bookseller and publisher. He commenced business in 1822 in connection with his brother, under the firm name of William & John Disturnell, in the building No. 202 River street (so long occupied by the late G. V. S. Quackenbush). They published an edition of Johnson's Pocket Dictionary, Shaw's Manual of Astronomy, and other publications in demand at that time.

In 1824, Mr. John Disturnell assumed the business alone and occupied the store No. 218 River street, where he continued the book business until 1829, during which year he published the first directory, which was printed by Tuttle & Gregory. The same year he removed to the city of New York, where he became engaged in the publication of geographical and statistical works, and is at the present time a resident of Philadelphia.

Subsequently, Norman Tuttle & Co. printed and published the Directory exclusively until 1839, when Kellogg & Cook (proprietors of the *Budget*) also issued one, and again in 1847 J. C. Kneeland issued one for that year, which was the first directory published with a map of the city, and containing more local and statistical matter than any year previous except the one of 1829. Prescott & Wilson, successors to N. Tuttle, continued its publication from 1847 to 1851, when C. L. MacArthur became its publisher and continued such until 1857, since which time it has been issued by the present compilers and publishers.

Its proportions have increased with each year, and the expense attending its compilation is necessarily greater with each issue, and we feel confident in saying that it has given general satisfaction to the public and its patrons.

Some idea may be formed of the magnitude of the present work, compared with that of the first issue, when there were but four wards of the city, comprising the whole district gone over in the one of 1829, leaving out the Nail Works and Albia entirely, while that of the present one includes not only the City of Troy, but also Cohoes, West Troy, Lansingburgh and Green Island. The directory of 1829 contained 2,080 names, while the present issue contains 27,975.

Among the more important public improvements in the city approaching completion, is the new Savings Bank building, which, from its commanding appearance and magnificent proportions, is the subject of commendation from all classes of our citizens, as well as strangers who visit our city, and we feel justly proud of the officers of the bank in their conception of this beautiful edifice.

Since the last publication, the following persons whose names appeared in the first directory (1829), have been summoned by the hand of death from among us: Royal Levings, Amos Knowles, Orasmus Eaton, Zabad Mosher, Olive L. Mallory, Elias Ross, Jonas C. Heartt and Elias Dorlon.

Our complete set of Troy Directories are often consulted, and our patrons are invited to examine them for any information they contain.

WM. H. YOUNG & BLAKE.

STREET DIRECTORY.

GIVING the name of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, you look at Second street, on page 13, and find that Liberty street crosses at 158, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

REQUIREMENTS FOR ADMISSION.

Previously to examination the candidate must present testimonials of good moral character to the Director of the Institute.

For admission to Division D, at the opening of the Winter Session, the candidate must be at least sixteen years of age, and pass satisfactory examinations in Arithmetic, Geography, English Grammar, including Spelling; six chapters of Davies' Bourdon's Algebra, and five books of Davies' Legendre's Geometry. For admission to advanced standing, at the opening of either the Winter or Summer Session, the candidate must be correspondingly older, and pass satisfactory examinations in the same, and also in all the previous studies of the Division which he proposes to enter. These examinations are extended and rigorous, including both Principles and Practical Examples.

SESSIONS AND VACATIONS.

The Scholastic year is divided into two Sessions of nineteen weeks each. After the first, or Winter Session, there is a vacation of one week; and after the Second or Summer Session, there is a vacation of thirteen Weeks.

The Scholastic year of 1874-75 will commence on the 16th of September, 1874.

TESTIMONIALS.

Having attended an examination in Mathematics in Prof. Willson's school, I take pleasure in expressing my great satisfaction with the manner in which it was conducted, and with the excellence of the result. The thorough knowledge of principles exhibited by the members of the class, and their ready command of them in practical application, were a sufficient indication of the discipline they had received in this department of their training. I cordially reccomend the school as one well worthy of general patronage.

TROY, JUNE 30, 1859. DASCOM GREENE,
Prof. Mathematics, &c., Rens. Pol. Inst.

It is with great pleasure that the undersigned, having attended an examination in the classics, held at Troy Academy, on the 7th of June, 1864, express their appreciation of the results of the training under Prof. Willson. The proficiency, both in the Latin and Greek languages, attained by those who received instructions from him, their familiarity with the various forms, and their exactness in translation testified in no doubtful manner to the diligence and tact of their instructor. It should be stated in connection with the above, that the recitations were from portions of the works selected by the committee at the request of the Principal, and that no opportunity was given for any other preparation than that already furnished by the discipline of the session.

This Company owns the entire water-power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall one hundred and twenty feet, giving nearly ten thousand horse-power. The Company's gate-house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the Company, with land for factory buildings, in perpetuity, at an annual rental of about twenty dollars per horse-power, and considering the locality, is the cheapest in the country. It is an unfailing power, and during the past few years, while most of the water-powers in the country have failed for a time, Cohoes has had abundant supply, without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal, or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

Money Order and Registry Department.—GILBERT D. ROBERTSON, *Clerk.* LEMUEL HURLBUT, Jr., *Assistant.*

Stamp and Stamped Envelope Department.—E. W. BURRAGE, *Clerk.*

There are four deliveries daily between Hoosick and Ida streets. Carriers leave the office as follows: At 7.30 A.M., 10.30 AM., 2.30 P.M. and 5 P.M. Two deliveries, viz.: at 7.30 A.M. and 2.30 P.M., in Fifth, Sixth and Tenth Wards. Letters collected from street boxes on return from each trip. In addition to the above-named deliveries, special deliveries will be made on the arrival of every important mail, on River street between the bridge and Ferry street, on Fulton street and on Broadway.
☞This mode of delivering letters is equally as safe and expeditious as delivery at the Post Office. It also saves the time and trouble of calling at the Post Office after the arrival of each mail.

Sending Money by Mail.

Money should never be enclosed in an ordinary letter. The Post Office Department has devised two methods for the safe transmission of money, one of which should be invariably used. A list of money order offices will be found at the Post Office. When the office to which it is desired to send money is not a money order office, persons should avail themselves of the provisions for Registering Letters. Letters may be registered and thus sent with safety to any Post Office in the United States, Canada, Great Britain, and most foreign countries at a trifling cost.

"SUCCESS IS THE BEST CRITERION."

TWELVE REASONS WHY

Every Banker, Merchant, Manufacturer and Jobber should

SUBSCRIBE TO THE MERCANTILE AGENCY

OF

R. G. DUN & CO.,

1.—It is the oldest and most reliable Agency, has SIXTY-ONE BRANCH OFFICES (a much larger number than any of the smaller Agencies), is AMPLY RESPONSIBLE, and has every facility that large means, long experience, and the best system and management can furnish, to enable it to fulfil its engagements, and to give reliable and prompt information to its subscribers.

2.—It publishes FOUR TIMES A YEAR (viz., in January, March, July and September) the most complete and best revised Reference Book, containing a much larger number of traders *in actual business* than any of its competitors, and its system of rating, giving a definite estimate of worth and credit, is the most simple and thorough that can be devised.

3.—The notification sheet of changes contains nothing but vitally *important* matter, which at once attracts the attention of the subscriber (if interested); whereas, other agencies issue sheets which are largely made up of trifling changes, which only bewilder the reader and cause what is really important to be overlooked.

4.—Because the Agency has the best method of watching its subscribers' customers, and keeping its patrons notified *in detail* of changes in their responsibility. It makes a minute of every inquiry made, and when a failure is anticipated, the information is furnished in full, *immediately* and unsolicited, to all who have previously inquired about the firm in trouble. A notice of this kind is often worth the whole subscription price a dozen times over.

5.—Because it is more relied upon by all the prominent houses of the country than all its imitators put together, commands the best subscription price, and is, without question, the standard authority upon credit in the United States and Canada, over one-half the business of the country being governed by its reports.

6.—Because it depends entirely upon its intrinsic merit to give satisfaction, makes no false pretenses, and can give *facts* and *figures* for every statement it makes in the legitimate prosecution of its business.

7.—Because it has over Fifteen Thousand Subscribers, representing the most honored and respectable houses in the United States, British Provinces, and in England, Ireland, Scotland and France, having offices in each country.

8.—It has thousands of the most flattering testimonials from the best firms in every city in the Union, testifying to its efficiency, promptitude and reliability, for, in many cases, a connection of twenty-five or thirty years. No other agency has such a record. These testimonials are published by us in book form, and may be had upon application.

9.—Because every one selling goods on credit, or doing business in which the responsibility of others enters into their chances of profit and loss, can better afford to subscribe than to do without the Agency. It has so many subscribers among conservative, prudent dealers, who desire to do a careful business among safe customers, that those who do not subscribe are the ones who are most likely to sell to irresponsible traders, who are refused credit by our subscribers.

10.—It is simply *insurance*, equally as much so as that of life or fire insurance, and the subscription paid is only the premium, which any careful house ought to be willing and glad to pay for the means of saving bad debts and making good customers. It is not a luxury, and it is only false economy that regards it as such.

11.—It *pays* to subscribe to the Agency, as it furnishes a never failing medium to smooth and facilitate all business transactions, make prompt and discreet decisions upon applications for credit, fill orders promptly and generally safely, and to *make money*.

12.—We head this Circular with the motto "Success is the Best Criterion," and point to the fact that we have opened, in important centres of trade, *Fifteen* Branch Offices within the past two years, as proof of our success. This one fact alone speaks volumes in favor of The Mercantile Agency, a record so brilliant being a sure criterion.

GREAT REVOLUTION IN LUMBER WAGON SPRINGS.

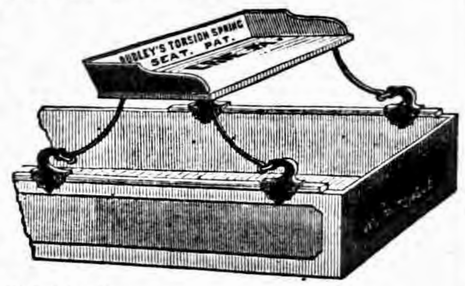
FIRST PREMIUM awarded at the American Institute Fair, Nov. 5, 1870, in favor of

HERSHEY TORSION SPRING

Over the Ecliptic and all other Competitors.

What do the Judges say? "They are all the Patentee claims for them: Light, Durable, Efficient, Convenient and Cheap"

1. They save the wagon, by relieving the wheels and axles from the force of the blow given in driving over rough roads.
2. SAVE POWER. Two tons, with peculiar elasticity of the springs, require only the draft power of one ton without springs.
3. Save the bruising, breakage and jambing of the load.
4. Relieve the noise and clatter of heavy wagons very much.
5. Save time. A spring wagon or cart can safely be driven faster than without springs.



TESTIMONIALS.

WAR DEPARTMENT, DEPOT QUARTERMASTER'S OFFICE,
Washington, D. C., April 14, 1871.

TO THE QUARTERMASTER GENERAL U. S. A. Washington, D.C.

General,—I have the honor to acknowledge the receipt of your instructions of January 21, 1871, for the trial of a new wagon spring, presented by Mr. R. Dudley, of Erie, Penn. A set of the springs was applied by Mr. Dudley to one of our two-horse wagons in use at this depot, and tested severely, with satisfactory results, the wear and tear being much less on the wagon and team than without them. They stood the test without any perceptible deterioration, and are now in as good order and condition as when first made. I respectfully suggest, to ascertain the merits of this invention, that it be more thoroughly tested on the plains.

Very respectfully, your obedient servant,
WILLIAM MYERS,
Capt. and Depot Q.M., War Dep't, Washington, D.C.

The Quartermaster-General indorses report as follows: "Such number to be procured from the manufacturer and forwarded to such points as Col. D. H. Rucker may indicate, as he may think necessary to secure a thorough trial of the invention."

Mutual Life Insurance Co.,

SEARS BUILDING,

WASHINGTON, CORNER COURT STREET,

BOSTON, MASS.

Organized as the Exponent of the Non-Forfeiture Law of Massachusetts.

It was the FIRST Company to proclaim the benefits of this Statute to the public; the first to make all its policies subject to this Statute, and which had the "honor of the first practical compliance with the Statute."

All the Profits are divided among the Policy-holders. Dividends paid annually on the Contribution plan, commencing one year from the date of the policy, and to be used as Cash in payment of premiums.

All its Policies are Non-forfeitable after One Payment, or entitled to a paid up policy.

By reference to the Report of the Insurance Commissioner of Massachusetts, it will be seen that this Company is not surpassed by any other in the United States, as to security to Policy-holders.

DESK CLOSED.

We call your attention to the above cuts representing our celebrated ROLL-TOP DESK, which we manufacture and sell to Banks, Insurance Companies, etc. It is the best arranged Desk we have ever manufactured. By simply pulling the top over, the papers, books, &c., are covered; it also locks all the drawers. It has slides to pull out over the drawers, and is finished complete on the back, so it can be placed in any part of the room. They are made of the best coal-fire seasoned stock, and warranted not to shrink or crack. Should you require a nice desk, we should be pleased to receive your order.
